President's Column

When you buy nursery stock from this catalog, I want you to know that you can rely on our selection as though you were to make a special trip to Dansville and personally choose each and every item in your order from our vast fields of nursery stock.

We grow only **HARDY NORTHERN PLANTS AND TREES**; and they are guaranteed true-to-name. You will get the same personalized attention and interest that you yourself would devote in selecting outdoor plant life.

A. E. MALONEY.

Buy by Mail

It's Easy to Order

Buying at Maloney's by mail is convenient and economical.

Yes! You can do all your shopping for the city, farm, or suburban home, leisurely any time you wish from your easy chair in the comfort of the home.

Please use our convenient order sheet and envelope accompanying this catalog. (No postage required.)

We sell only selected stock grown by our experienced men. True-to-Name, Maloney northern grown hardy nursery stock guarantees success.

Maloney's Guarantee

WE GUARANTEE to deliver stock in good condition, up to grade and specifications. If your order arrives in damaged condition, report immediately to carrier and to us. We will correct errors promptly or refund your money.

OUR REFERENCES: Security Trust Company, Dansville Branch; Genesee Valley National Bank & Trust Co., Genesee, N. Y.; Dun & Brandstreet Commercial Agency, New York City.

Free from Disease

INSPECTION. Our nurseries are inspected yearly by an authorized State Inspector and a copy of our certificate received from the Department of Agriculture and Markets, Albany, N. Y., accompanies each shipment.

Hardy Northern Grown

Maloney trees are hardy—they are grown in the North and must stand severe low temperatures. All are grown on hill land which makes better roots, strong straight tops and sturdier trees.

MALONEY'S EASY TO ORDER

Mailing List—Write us of any change in your home address.

Here's How

TERMS: Cash with order is required or stock will be shipped C. O. D. All stock f. o. b. Dansville, except as specified.

C. O. D.: Send 25 per cent of total price with C. O. D. orders. Pay **balance** on arrival to your express agent or (if freight) to your banker, who will have Bill of Lading.

How to Remit: By personal check, express money order, post office money order, bank draft or cash in a registered letter. **PLEASE DO NOT SEND STAMPS.**

All of the Apple varieties propagated and now growing in the nurseries of Maloney Brothers Nursery Company, Dansville, New York, have been examined by the Massachusetts Trueness-to-Name Inspection Service. To the best of our knowledge, these trees are true-to-name as they now stand in the nursery row. A. P. FRENCH

*Make Fruits a Part
of the Landscape
Plan for Your
Front or Rear
Garden*

The old saying: "Have your cake and eat it, too!" can be put to work by combining practical fruit

plantings in your home landscape arrangement. The above sketch is a good illustration of a front yard made beautiful and practical by the tasteful

planting of fruit trees available at your Maloney Nurseries.

For the smaller garden areas, dwarf Apples and Pears can be planted as close as 10 to 15 feet apart, so there's no need for you to feel defeated if you are slightly handicapped by a smaller yard!

Best Summer Apples

ANOKA. New. Beautiful red-striped fruit. Good quality, highly recommended. Bears second year after planting. Mid-August.

Early McIntosh For home orchard or commercial use, this is the ideal variety to plant. Tree vigorous grower. It is an annual bearer. Fruit same size, quality and flavor as McIntosh Red. Late August.

LODI. Yellow fruit. Large, vigorous. Mid-August.

RED ASTRACHAN. A good bearer, fruit handsome, large, round, covered with deep crimson. Flesh juicy and tender. Good summer Apple. Early August.

YELLOW TRANSPARENT. Tree grows upright, hardy, early bearer. Fruit good size. Skin clear, white to pale yellow in color. Flavor very good. Is an excellent cooking Apple known to the housewife everywhere. Early August.

Two Popular Autumn Varieties

POUND SWEET. (Pumpkin Sweet.) Large yellow, russet Apple, very sweet. Late September.

RED GRAVENSTEIN. A new red sport. Differs from the old Gravenstein only in the solid dark red color of the fruit. Early September.

**FRUITS
15¢ per bushel**

Two dollars or less buys a tree; 50c a year for materials sprays it. Where else can you get such a bargain as in the bushels of vitamin rich eating this tree gives you for years and years?

MALONEY
Fruit Tree
Grades

Quick
Crop
5-6-ft
size

These big 5-6 ft. super size trees are the finest 2-year-olds we can grow. They are the largest and sturdiest size of 2-yr. tree, tall as you are and carefully dug to give immediate results.

4-5 ft. size

Select Trees

A smaller tree, just as hardy, having all the qualities of the 5-6 ft. tree, but lacking the size. An exceptional buy on a better than average tree.

Maloney's
3-4 ft. Size

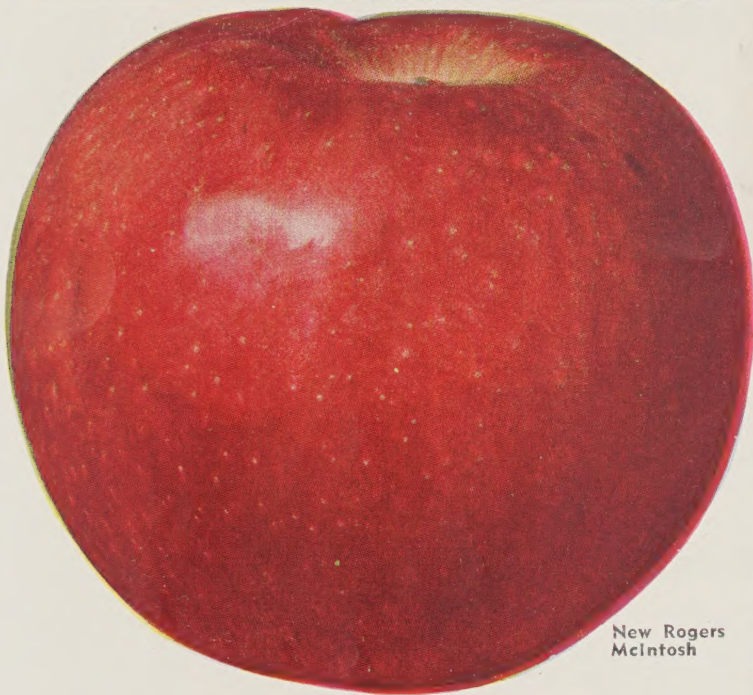

These trees are widely planted. A small size, hardy, dependable tree, bears same as above sizes, but a little slower to mature.

Apple Trees Grown by Maloney

Supremely Fine Trees that are Associated with Nature's Finest Fruits

Grow Fruit for Better Health • Only When You Grow Your Own Do You Have Plenty to Eat

New Rogers McIntosh Solid red McIntosh, classed as one of the most valuable new fruit introductions in years. Annual bearer. Fruit is the same size as the common McIntosh, but it is not striped. Flesh white, fine grained, very tender, juicy and refreshing. Better quality than common McIntosh and hangs better on tree. October-January.

New Rogers McIntosh

Northern Spy

Red Northern Spy Red Spy is typical Northern Spy Apple except in color. The Red Spy colors a solid bright red without either stripes or splashes. Very popular winter variety. December-March.

APPLES—Continued from page 3

Approved Winter Apples

BALDWIN. Large, red, crisp, juicy. Good eating and cooking Apple. Tree vigorous and productive. December-March.

CORTLAND. This is one of our leading varieties, popular with the commercial grower. For colored illustration, and full description, see bottom of page.

Double Red Delicious Solid lustrous red without stripes. Fine grained flesh of excellent quality and flavor. A splendid keeper and shipper. Annual bearer, one of the most highly prized winter eating Apples. Everyone should have a few trees of this variety. November-April.

GOLDEN RUSSET. Clear golden russet. November-April.

JONATHAN. Red, highly flavored. Fine commercial variety. Early bearer. November-March.

JONATHAN, DARK RED. For eating fresh, dried, cooked, baked. Skin is rich red all over, long before ripe. A quick seller. Keeps all winter in storage. Jonathan trees bear young and always produce a full and profitable crop. Preferred long-distance shipper. Better quality than common Jonathan. November-March.

Large, 1-yr., 3 ft. up	1.35	1.10	.90	.80

The dates after varieties indicate the keeping season of the fruit.

Cortland Beautiful red Apple, larger than McIntosh. Matures a month later. Excellent quality, keeps late in winter and can be handled and shipped like the hardiest market varieties. Fine for culinary purposes. November-March.

Since 1884

YELLOW DELICIOUS. (Golden Toned.) A bright golden yellow Apple. Many say this is the finest yellow Apple. Bears young and heavily. The fruit is large, juicy and of exceptionally fine quality. October-April.

APPLES—Continued from page 4

MACOUN. Dark red; white fleshed; rich flavor. October-March.

McIntosh Red Valuable, hardy, attractive Apple; good size, nearly covered with red. Flesh white, fine, very tender and refreshing. A good annual bearer, comes into fruiting early. Yields large crops. October-January.

MILTON. McIntosh-like but ripens a month before McIntosh. Fruits pinkish red with heavy bloom; flesh white, tender, crisp, juicy and of McIntosh flavor and aroma. September-October.

NEW ROGERS MCINTOSH. This variety is comparatively new, a development from the original famous McIntosh, which is of high red color at an early age and a splendid eating and cooking variety. For colored illustration, and full description, see page 4.

NORTHERN SPY. Hardy, large, red striped. Flesh juicy, crisp, tender. Tree healthy, strong grower. December-March.

RED NORTHERN SPY. A family progeny of the all-time favorite Northern Spy, which combines all the fine characteristics of its famous predecessor plus heightened red coloring which makes it a highly marketable Apple.

Red Rome Rapidly becoming a leading commercial variety having the same shape and texture with equal or better quality than Rome Beauty. December-March.

R. I. GREENING. Fruit large and handsome, smooth, dark green overspread with yellow. More highly prized for cooking than any other Apple. Excellent keeper; tree very heavy yielder. December-May.

ROME BEAUTY. Large, round. Red striped. December-March.

STAYMAN RED. Solid red without stripes. Does not crack at stem; crisp and juicy. Will not scald in storage. December-April.

SWEET DELICIOUS. Large and attractive in size. Color yellow and dark red. Fine for dessert and baking. December-April.

TWENTY OUNCE. Very large, yellow striped red, fine quality, good keeper. October-January.

WEALTHY. Red, flesh white, sub-acid. October-January.

THE GREAT MALONEY RED DELICIOUS. This crimson-red large size Apple is ideal for either home growing or commercial purposes. They are good keepers, easily grown, and give more extra fancy fruit than most other varieties. The rich flavored large size Apple succeeds almost everywhere and is recommended highly by Maloney's as a "must" for all fruit growers.

YELLOW DELICIOUS. This predominantly golden colored Apple supersedes all others for appetite appeal. It has the same unique form as the Red Delicious, and is a favorite with home gardeners as well as the commercially minded grower. For colored illustration, and full description, top on left.

Maloney's Fine Crab Apples

Nothing Finer for Jelly!

DOLGO CRAB. Handsome red Crab Apple. Fruit jellies easily. Early September.

HYSLOP CRAB. Fruit large, deep crimson. Desirable for home use and market. Late September.

YOUNG AMERICA. Attractive red fruits, excellent size and quality. Jelly made from the fruit is a clear, beautiful red and splendidly flavored. Season middle of September. Young America planted as ornamentals as well as for their fruit.

Montmorency Cherry
—The Finest for Pies and Canning.

True-to-Name Inspected Heavy-Bearing Healthy Trees

It's fun to plant these extra size Maloney Fruit Trees. You surely get a lot of fruit tree for your money, and so reasonable in price!

Unusual Fruit Delicacies - ALL EASY TO GROW

Consider your personal family tastes primarily, put in the essentials . . . then tuck in as many unusual fruit luxuries as you have room for. Plant 1 Cherry, 1 Plum, 1 Peach, etc., and in this way you will certainly satisfy the wants of your family.

Nectarines

GROW AND ENJOY THEM

These are small, smooth-skinned Peaches with a distinctly different flavor. You will enjoy the melting, juicy texture of the Nectarine which furnishes one of the delightful fruits for eating in the summer. Plant a few trees this year.

PRICE: Large, 4 to 5 ft., \$2.50 each; 10 for \$22.50.

SURE-CROP. Fruit large, roundish, white overlaid with very attractive red. Freestone.

HUNTER. Fruit large, somewhat round. Attractive yellow with red blush. Freestone.

Maloney's BEACH PLUM

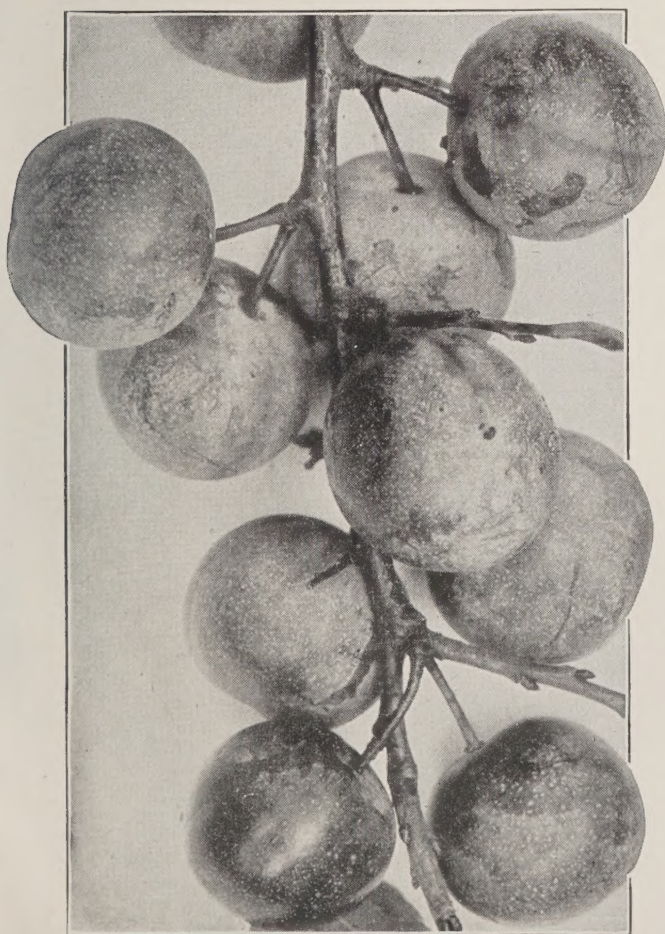

(Prunus Maritima)

A Fine Shrub for the Garden That Bears Edible Fruit

Lovely white or pale pink flowers in late June; this irregular shape shrub grows 8 feet tall, bearing purple fruit in September which makes an excellent jelly of unique flavor.

Good for dry soil, also at the seashore.

PRICE: Large 2 to 3 ft., \$2.25 each.

Before planting, consult your nurseryman. He will give you friendly counsel and professional advice as to proper planting to insure good pollinization and the best possible results.

Room permitting, and as a luxury in fruits for the family, take advantage of the deliciousness of such fruits as the Nectarine, the Apricot, and the Beach Plum, all of which are illustrated and described on this page.

The Smooth Skin Apricots

APRICOTS - A True Eating Delicacy

Delicious Pies, Desserts, and Jams

Not only for the deliciousness of the fruit, but for the artistic beauty of the tree all year around, we strongly recommend planting in home grounds.

These trees are hardy and easily grown, and produce fruit annually, which exceeds in quality and flavor many of the more common summer fruits. For these reasons growers should take advantage of these self-pollenizing trees.

THREE CHOICE APRICOT VARIETIES

The date after variety indicates the season during which fruit is at its best.

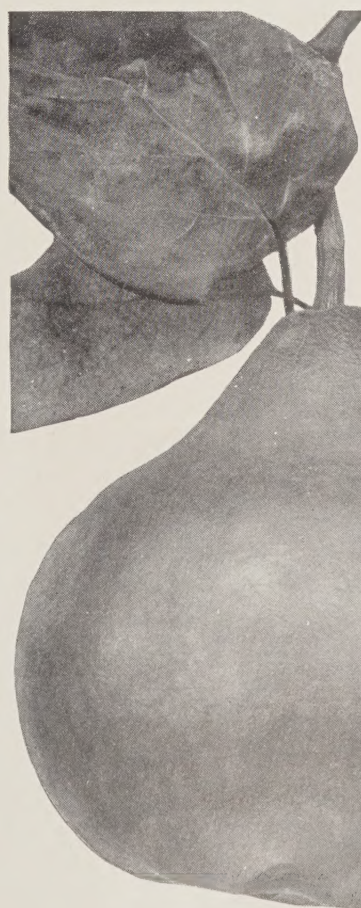

EARLY GOLDEN. Small, pale orange; juicy and sweet. Early August.

MOORPARK. Large; orange-red cheek; firm, juicy. Mid-August.

SUPERB. Good flavor, medium size; light salmon. Late August.

Golden Orange Quince

Nothing Finer for Jams and Jellies

Hardy dwarf growing trees, seldom over 8 to 10 feet tall at maturity. Have shimmering pink blossoms 2 inches across. Stiff, gray-green leaves. Fruit ripens to a clear yellow. A good crop every year. Very good baked, dried, preserved or made into jelly. High in pectin.

PRICES OF ALL VARIETIES OF APRICOT AND QUINCE Your Choice of Varieties, Alike or Assorted

Large, 2-yr., 4-5 ft., 1-9, \$1.90; 10-49, \$1.65, each.

If you want to grow fruit, enough space for several varieties can usually be found, even in limited areas.

3 Excellent Peaches that Challenge Comparison

1 ELBERTA. Best commercial money-making variety. Fifty per cent of all Peaches planted are Elberta. It has proven its ability to adapt itself to varied climatic and soil conditions. Tree hardy, disease resistant, very thrifty and productive. Fruit large, oval, yellow with red cheek. Flesh yellow, firm, juicy, of high quality. Splendid shipper and keeper. Mid-September. Freestone.

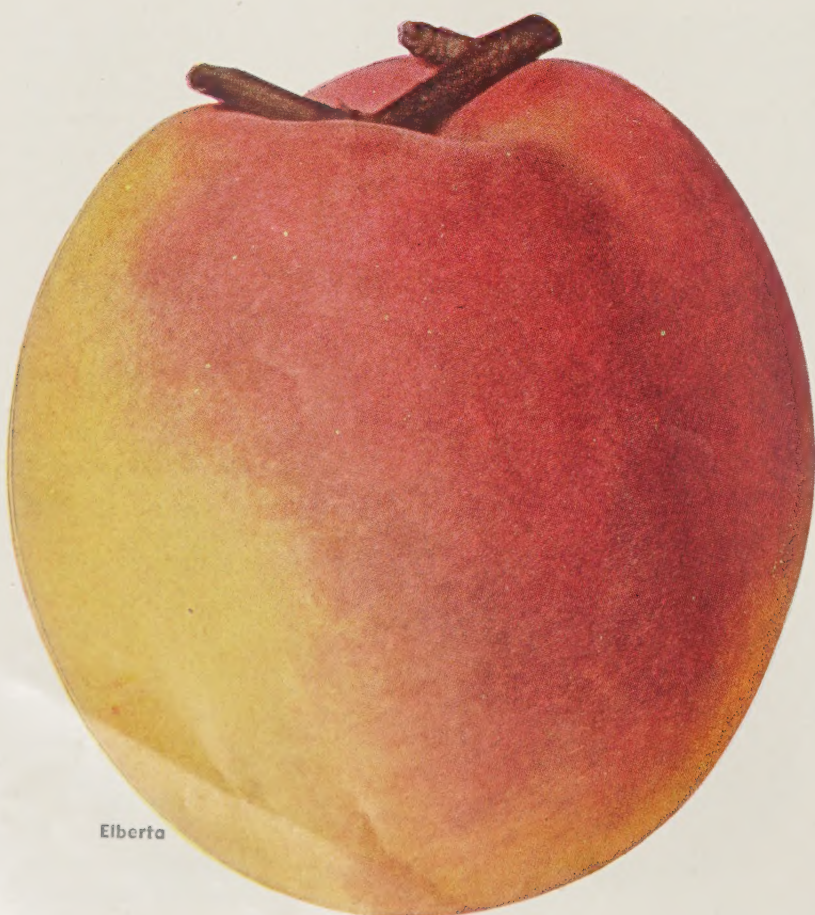

2 HALE-HAVEN. This exceptionally fine Peach is the result of crossing the marvelous J. H. Hale with South Haven. Fruit large, beautiful yellow. Flesh yellow, high quality, good shipper. Its high color even before ripening enables premature picking for distant markets. Tree is hardy, strong grower. Yields heavy crops early September. Freestone.

3 GOLDEN JUBILEE. Introduced by the New Jersey Experimental Station. It is proving to be a real money maker. Best canning Peach of all hardy varieties. Fruit large, yellow; flesh yellow, tender, juicy and sweet. Fruit improves as the tree grows older. Late August. Freestone.

The dates after varieties indicate the keeping season of the fruit.

BELLE OF GEORGIA. Large, white, red cheek. Late July. Freestone.

CARMAN. Creamy white, deep blush. Flesh tender and juicy. Best white Peach. Freestone.

CRAWFORD EARLY. Large, rich yellow with red cheek. Very productive. Early September. Freestone.

CRAWFORD LATE. Large, yellow with red cheek. Flesh yellow, melting, very good. Late September. Freestone.

CUMBERLAND. New variety introduced by the New Jersey Experimental Station. Tree is a vigorous grower and very hardy. Fruit red, flesh white. Mid-July. Freestone.

ELBERTA, EARLY. Yellow, large, good quality. Early September. Freestone.

ELBERTA. This variety has been predominant in the Peach family since the "horse and buggy days." The Maloney genuine Elbertas are roundish oval in shape. Deep golden skin blushed carmine-red, and the self-pollenizing freestone variety. See page 8 for colored illustration and additional description.

GOLDEN JUBILEE. One of the biggest paying varieties for commercial growers. The unusual attractiveness of the Peach itself sells on sight. Very hardy, a self pollenizer.

HALE-HAVEN. A large, beautifully colored, yellow-fleshed Peach, ripening 2 weeks ahead of Elberta. A perfect freestone, extremely high color; an excellent shipping variety. See page 8 for full color illustration and other details.

J. H. HALE. Large, yellow overlaid with carmine. Flesh yellow, fine grained. Late August. Freestone.

ORIOLE. Fruit medium to large; yellow. Early August. Freestone.

REDHAVEN. Redhaven has the famous flavor bred into South Haven and Hale-Haven. It's a hardy variety, and a big yielder. Earliest yellow freestone. Mid-August.

ROCHESTER. Good sized, yellow. Mid-July. Excellent for roadside stands for it cans well. Freestone.

SOUTH HAVEN. This variety is increasing in popularity. Golden yellow with red blush, juicy and deliciously sweet. Late September. Freestone.

VALIANT. Seedling of Elberta, rapidly increasing in popularity. Fruit large, roundish, oblate, yellow blushed with red; firm, juicy, very good quality. Season about September first. Freestone.

VEDETTE. Ripens a few days before Valiant. It was obtained from an Elberta seed. The tree is productive and the fruit is large, roundish oval, yellow fleshed. Some classify it as superior to its parent, not only in quality but color as well. Late August. Freestone.

Commercial growers everywhere can always depend on the inborn quality of the Maloney fine grown trees. Not only do they take hold quickly in new locations, but are dependable in their yield of bumper crops every season.

Medium, 2-yr., 4-5 ft.	1.80	1.50	1.00
Small, 2-yr., 3-4 ft.	1.60	1.30	.85
Large, 1-yr., 3 ft. up	1.80	1.50	1.00

The dates after varieties indicate the keeping season of the fruit.

All of the Pear varieties propagated and now growing in the nurseries of Maloney Brothers Nursery Company, Dansville, New York, have been examined by the Massachusetts Trueness-to-Name Inspection Service. To the best of our knowledge, these trees are true-to-name as they now stand in the nursery row.

A. P. FRENCH

BARTLETT PEAR. See colored illustration and full description on page 13. One or two Bartlett Pear Trees planted in the home garden will furnish a considerable amount of fruit that is A-1 in quality and quantity, and tops for either cooking or eating.

BEURRE BOSC. Large, yellow, flesh white, rich and delicious. Very popular early winter Pear. October-January.

CLAPP'S FAVORITE. See colored illustration and full description on page 13. Maloney's strongly recommend this as a predominantly hardy variety that will succeed where others fail.

DOUGLAS. New. Large, roundish. Skin yellow blushed scarlet. Blight-proof and frost-proof. Mid-October.

GORHAM. Fruit resembles Bartlett in size, color and shape. Excellent flavor. Two weeks later than Bartlett. Mid-October.

KIEFFER. Large, golden yellow. October-January.

LINCOLN. Fine, large, late summer Pear of clear yellow flushed red; flavor delicious canned or eaten fresh.

SECKEL. Small, yellow, red cheek, juicy, excellent for pickling. Mid-September.

SHELDON. Large, sweet, yellow and green. Early October.

1 Douglas

Supremely Fine Trees that are Associated with Nature's Finest Fruits

BURBANK

Large Maroon-Red Plum. Large, round, red variety, full crop every year. Trees bear heavy, often need thinning. Tasty, yellow flesh; fine, firm texture. Juicy, delicious to eat from hand or canned. It is an excellent shipper; adaptations are for all localities.

Fellenberg Prune

(Italian.) The most popular commercial Prune. Valuable for dessert, for market and drying or preserving. Fruit large, dark purple with blue bloom, oval, pointed and tapering. Flesh is juicy and delicious, separating freely from the stone. Late September.

YELLOW EGG

A late ripening, large, golden yellow fruit. Excellent for cooking, and eating fresh from the tree. The largest and the handsomest of all yellow Plums.

PLUMS. Should be interplanted. Use European varieties for European and Japanese varieties for Japanese.

The Home of Northern Grown Nursery Stock

BARTLETT

Recognized as the leading commercial Pear. Large, yellow, waxy, rich and juicy; tree hardy, regular and heavy bearer. Early October.

CLAPP'S FAVORITE

A large, fine Pear resembling Bartlett; pale lemon-yellow with brown dots of fine texture. Melting, buttery, juicy and delicate flavor. Trees hardy and productive. August and September.

NEW SEEDLESS PEAR

No Seeds—No Core

A new fruit sensation. New discovery in a seedless and coreless Pear. Resembles Bartlett in many ways, including its color. Ripens 10 days after Bartlett, a season in which no other good varieties are on the market. Keeps well in storage and ripens evenly.

PRICE: 2-yr., 5-6 ft., \$2.50 each.

SENSATIONAL *Thornless Boysenberry*

For a New and Exciting Berry Flavor, Suggestive of the Raspberry,
Preserved Boysenberries are Tops in Eating Pleasure

PRICE: 2-yr., extra large, No. 1 plants, 3 for \$1.65; 6 for \$2.70;
10 for \$3.50; 25 for \$6.75.

This amazing new berry has the same big, juicy, delicious fruit as the regular Boysenberry. The vines are absolutely **thornless**, making the cultivation of same and picking easy. They can be trained to a trellis or wire. Late July.

HOW TO GROW BOYSENBERRIES

Set plants 8 by 8 ft. in and between rows. Let the vines creep on the ground the first year. To be safe, cover the plants with straw, leaves or soil before heavy frosts. When the buds appear, tie the vines to the wire or trellis about 2½ ft. above the ground. After fruiting, cut the plants to the ground and burn vines. Repeat this practice every year.

Mammoth BOYSENBERRY

A "Whopper" of a Berry—Often Measuring an Inch Across

PRICE: 2-yr., extra large, No. 1 plants, 3 for \$1.50;
6 for \$2.40; 10 for \$3.00; 25 for \$5.50.

This is the berry which has created such a sensation throughout the United States. A tremendous bearer of immense berries often 1½ to 2 inches long, of the highest quality. No matter whether used fresh or canned, or in pies or jelly, it stands supreme. No other berry has ever been received so enthusiastically or planted so widely. Late July.

With some protection where the thermometer drops more than 10 degrees below zero, they can be grown almost anywhere other berries can be successfully grown.

For field culture spacing 8 feet apart in the rows with rows 8 feet apart is recommended. In smaller plots this may be varied to suit local conditions but plants should not be set closer than 6 feet in the rows.

These plants are strong, extra large, 2 years old. Will take hold at once and produce heavily the second year.

Plant the same as any Raspberry plant. Then, when the shoot appears cover with 1 inch of soil and when the shoot has grown up through this soil, apply another inch and repeat once or twice more.

Testimonials Galore!

Gentlemen:

Nanuet, N. Y.,
May 20th, 1948.

Received 3 Peach trees and very pleased with same. Any future wants in this line will be ordered from your firm. Will recommend you to my friends.

Respectfully,
W. B. SCHUPNER.

Gentlemen:

Meadville, Pa.,
April 15th, 1948.

Received the fruit trees last week and the strawberry plants this week. The trees were planted promptly and are already showing signs of growth. It is a satisfaction to receive such excellent stock.

If you put out a fall book would be pleased to receive a copy. Hope to have ground ready for shrubs by that time.

Very truly yours,
H. P. WAY

Dear Sirs:

Fairfax, Va.,
May 17th, 1948.

Received my berry plants about 10 days ago and I am very pleased with them. They are the finest plants I ever got from any nursery. We promptly set them out and every last one lived and now have tiny leaves on. I want to send an order for 1000 of the same Eldorado berries. Please let me know by return mail if you can ship them now. I hope so for I am very anxious to start them growing.

Respectfully yours,
MRS. W. M. HOLLOWAY.

Dear Sirs:

Coldwater, W. Va.,
April 2nd, 1948.

Received my shipment of trees April 1st. Everything in fine condition, well packed and in good shape. Think I will make another order later. Thank you very much for the spring shipment. Respectfully, L. E. DENNISON.

Cornwall, N. Y.,
May 3rd, 1948.

Dear Sirs:

I received my order of trees about three (3) weeks ago, and I must say it was the best done-up package of trees that I have ever received from any nursery, and the trees were the best I have seen for a long time. That is saying quite a lot because I have been buying from some of the best nurseries in the State. The root system could not be any better and many thanks to Maloney Bros. for my small order of trees which was so satisfactory in every way.

Very truly yours,
ALBERT C. FREDELL.

Gentlemen:

Plainville, Conn.,
March 31st, 1948

I would like to express my pleasure at being able to send you another order this year.

Last year was the first time we had ever ordered any nursery stock, so we picked two ads at random from a magazine. Fortunately for us, yours was one of them. We had very poor luck with the things from the other place, but all your stock came in excellent condition and made good growth even last season. We are only too glad to recommend you to our friends.

I saw and enjoyed your lovely exhibit at the New York Flower Show.

Sincerely,
MRS. PAUL W. DICK.

Hansen's Bush Cherry

The New Quick-Bearing Cherry—Highly Productive—Good Flavor
EASY TO GROW—SURE TO PRODUCE—HARDY EVERYWHERE

Though the fruit of this new Cherry much resembles a Plum in size and shape, it comes massed in clusters and at times almost completely covers the limbs. The tree grows in a dwarf bushlike shape rarely getting over 4 to 5 feet tall. Fruit is sour. Also a striking ornamental value.

Plant Hansen Bush Cherries Because:

1. They are so easy to grow and are perfectly hardy everywhere.
2. Are good to eat fresh, and make delicious preserves.
3. Bear from the ground up, early, heavily, and annually.
4. Are dwarf growing, bushy, take up little room.
5. Excellent for hedges, ornamental shrubs and erosion control

PRICE: 3-yr., fruiting age, 75c each; 2 for \$1.45.

ASPARAGUS - *Rust Resistant*

Easy to Grow—A Delicious Table Vegetable
MARY WASHINGTON, Pedigreed

Healthful and delicious, and also easy to grow . . . it's no wonder fresh Asparagus tips are such a popular delicacy. New shoots keep coming as the tops are cut.

Mary Washington is heavy yielding, rust resistant, and is fast replacing older varieties in home and market.

Mary Washington is accepted by commercial growers as the best type . . . hardy, long lived, a heavy producer of tall, straight, tender shoots.

PRICE: 2-yr., No. 1, 25 for \$2.05; 50 for \$3.35; 100 for \$5.40; 500 for \$16.90; 1000 for \$25.00.

1-yr., No. 1, 25 for \$1.30; 50 for \$2.15; 100 for \$3.40; 500 for \$10.65; 1000 for \$15.00.

GOOSEBERRIES

Lovely Bushes—Abundant Fruit Yields Every Year

PRICE: 2-yr., No. 1, strong bushes, 90c each; 10 for \$8.00.

DOWNING. Fine quality, vigorous growth, and free from mildew. Large, green. July.

JOSELYN. Marvelously productive, large, dark red. July.

POORMAN. Large, healthy, vigorous. Fruit red and very attractive. Excellent for heavy soils. July.

2 Best Maloney Currants

PRICE: 2-yr., No. 1, 75c each; 3 for \$1.95; 10 for \$5.95; 25 for \$13.75.

WILDER. Upright, vigorous; clusters above medium length; berries large to very large; bright red with mild sub-acid flavor. Ripens early and remains bright and firm until very late. Early July.

RED LAKE. Originated recently at the Minnesota State Fruit Breeding Farm. Finest of all Red Currants. The berry is usually large in size and of superior quality. The clusters are long and filled out to the top. Berries are a clear light red and the quality excellent. The bush is vigorous, upright and productive. Ripens early midseason, but holds on over a long period so it can be used or marketed as desired. Early July.

They're New-Chinese Chestnuts

Disease Resistant

CHINESE CHEST-NUT. Blight Resistant — Early Bearer. Finally after many years of research by the U. S. Department of Agriculture, we are able to offer a real old-fashioned sweet chestnut, with large size, excellent quality nuts. These trees are not subject to blight and are an early bearer. Price: 2-3 ft., \$2.50 each; 3-4 ft., \$3.00 each.

Rhubarb-Horseradish

PRICE OF RHUBARB (Except as noted)

JUNE BEARING VARIETIES

PRICES: Postpaid or Express prepaid (except as noted), 25 for \$1.25; 50 for \$2.00; 100 for \$3.25; 250 for \$6.50; 500 for \$10.00; 1000 for \$17.50.

CATSKILL. The berries are large, bright red and produced in abundance. The plants are vigorous and the berries last well. Mild sub-acid flavor.

DORSETT. Released for introduction by the U. S. Department of Agriculture, spring 1933. Color is bright red. Berries very large; flavor superior to other early berries. Can be classed among the best.

PREMIER. Perfectly flavored. It is smooth and large; its color is the commanding glossy red which sells on sight. Early.

ROBINSON. The new Robinson originated in the heart of the Strawberry growing section of Michigan, and is rapidly growing in popularity. It brought a premium on the market due to its scarlet-red color and unusual firmness. It is a vigorous grower. Midseason.

SPARKLE. High quality berry. Ripens a week later than Premier. Fairly large, bright red, smooth and firm, excellent for freezing. Plants are large and vigorous. One of the best late varieties tested at the New York State Experiment Station, Geneva, N. Y.

EVERBEARING VARIETIES

GEMZATA. The outstanding Everbearer of all time. The Gemzata is an exceptionally heavy producer of large, attractive fruit. It has the firmness of the Gem, making it the leading Everbearer for shipping to distant markets. It has proven to thrive in all types of soil, even where all other Everbearers fail. **Price:** 25 for \$2.25; 50 for \$3.75; 100 for \$6.00; 250 for \$12.00; 500 for \$18.75.

The New Streamliner Ever-Bearing Strawberry

EVERBEARING VARIETIES

STREAMLINER. The Strawberry you will enjoy without sugar is finally here. Sweet as honey, fresh as a June day. The Streamliner gives you everything. The berries are jumbo sized, glossy red and delicious, conical in shape and very uniform in size throughout the season; starts fruiting in July and extends until hard freezing weather. Up to a quart of berries per plant has been known of Streamliner. **Price:** 25 for \$2.40; 50 for \$4.35; 100 for \$7.00; 250 for \$14.00; 500 for \$21.85.

SUPERFECTION. New everbearing originated by Mr. Kiplinger of Northern Michigan. Berries are very large, tend to be round in shape. They are deep red all the way through. Superfection has the usual quality in everbearing of being honey sweet in flavor and still firm enough for distant shipping. Resembles Robinson in this respect. Berries are produced 90 days after planting first season and produce exceptionally heavy crops with hard freezing weather. A good plant maker and vigorous grower. **Price:** 25 for \$3.00; 50 for \$5.50; 100 for \$9.50; 250 for \$20.00; 500 for \$35.00.

MALONEY'S

Established 1884

65 YEARS DEPENDABLE SERVICE 3 Generations

Originally founded by Thomas J. Maloney in 1884, a standard of perfection and top quality was established and has been steadily maintained through the years.

This organization is presently staffed by A. E. Maloney, President, and W. J. Maloney, Secretary-Treasurer, who are both sons of the original founder. The youngest member of this company is H. W. Maloney, son of W. J. Maloney, and acting Vice-President in charge of sales and advertising.

Backed by these men, customers everywhere buy with confidence the finest nursery products grown.

Aerial View of Our Office, Greenhouses, and Packing House

A Sales Room For the Convenience of Local and Visiting Customers

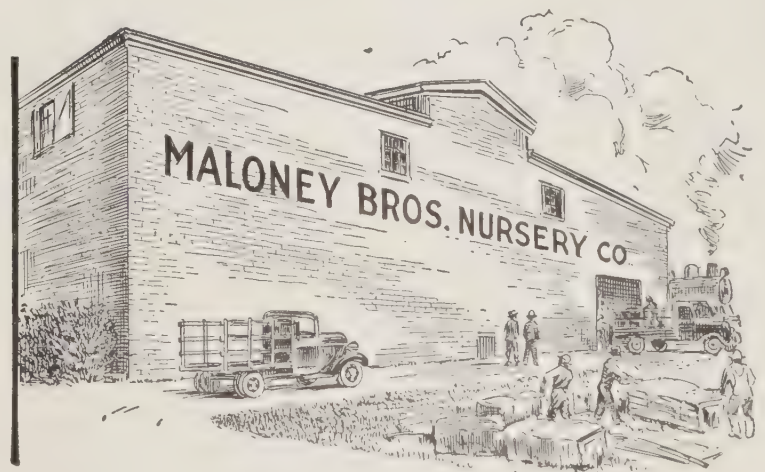

Located in the pictureseque hills of Dansville, New York, Maloney Brothers is the active center for visiting garden lovers—both local folks and those who've come from distant places. Here we have for the convenience of customers, a practical display garden where prospective buyers can make their selections at first hand and with the friendly counsel of our experienced sales staff. Even though many of our friends cannot make a personal visit, and necessarily have to use the Maloney Mail Order Plan, the same individualized attention and care is given your purchase that you yourself give to the selection of your nursery plant products.

EVERGREENS FOR FOUNDATION AND GARDEN PLANTING
Grown scientifically by Maloney's. These fibrous rooted, full foliage specimen trees are extremely hardy and vigorous. Such fine rooted specimens transplant successfully in new locations.

From this building your order is assembled, packed and shipped to you.

MALONEY'S Are Nationally Recognized for Their Fine Quality, Dependable Nursery Products

LATHAM

Red. Large, round, richly brilliant red. A superb success in quality, production and profits. Fruit clings to stems several days after fully ripe. Mosaic free. Early July.

MARION. New purple Raspberry. The berries are very large, holding up well in size through the season, moderately juicy, firm, tart, and good in quality. Marion ripens about a week later than Sodus.

MILTON. New. A late variety for market and home use. The berries are large, an attractive, bright red, firm and it ripens 2 or 3 days later than Taylor and Latham. The plants are vigorous, productive and hardy. **Price: 10 for \$2.50; 25 for \$5.00; 50 for \$8.00; 100 for \$13.00; 250 for \$28.00; 500 for \$45.00; 1000 for \$80.00.**

Purple and Black Raspberries

MORRISON. New Black Raspberry. It ripens a little later than Cumberland. The color is an intense, glossy black, so attractive that these huge berries sell on sight. The fruit has almost no seeds, firm texture, yet juicy. In short, this is the most promising new Black Raspberry.

Price: 10 for \$2.50; 25 for \$5.00; 50 for \$8.00; 100 for \$13.00; 250 for \$28.00; 500 for \$45.00; 1000 for \$80.00.

NEWBURGH. Attractive bright red. Fruit very large, firm and does not crumble. Plants vigorous, hardy and practically mosaic free. A splendid home and market variety. Early July.

CUMBERLAND. See color plate and description on this page.

ST. REGIS. Red everbearing. One of the best. Berries are very large. Will supply the table with delicious fruit throughout summer. Starts bearing mid-June and continues until frost. **Price:** 10 for \$2.50; 25 for \$5.00; 50 for \$8.00; 100 for \$13.00; 250 for \$28.00; 500 for \$45.00; 1000 for \$80.00.

SODUS. See color plate and description on this page.

TAYLOR. New Red Raspberry from New York Experiment Station. Long, conical shape; firm, thick flesh; flavor excellent. Larger than Latham and one of the heaviest bearers we have ever seen. Very early July.

A SATISFIED CUSTOMER

Dear Mr. Maloney:

My stock arrived in wonderful condition last year, no nursery ever packed better or even as well. In six weeks the Bartlett Dwarf Pear was in full bloom.

I consider it a privilege to pass along good news to my fellow gardeners, and a nursery whose stock enables one to grow fruit and flowers to be proud of certainly comes under the classification of good news.

With every good wish for Maloney Brothers,

Sincerely,

ALENE BOYENTON

Columbus, Ohio
Feb. 28, 1948

SODUS Purple. Berries very large, firm, sprightly and good flavor. Plants very vigorous, productive and hardy. Much more resistant to drought than Columbian. Valuable market variety. Mid-July.

CUMBERLAND—America's Popular "Black Cap"

Produces large, jet black fruit, firm and of excellent quality. Starts to ripen in midseason, continuing for several weeks. Fruit is large, plump, sweet and juicy with a true "black cap" flavor all its own. Free from seediness and crumbling and an ideal shipper.

PLANT *this* SPRING

Plant this spring. Berries belong in the garden. Plant them in lots of twenty-five or more bushes for a plentiful supply of berries for the family.

Blackberries

3 Best Varieties of Selected Blackberries

Blackberries Are Delicious When Picked or When Frozen or Canned

Blackberries are easily grown and bear abundantly. They grow almost any place, even on a rough, steep hillside. What is more appetizing than a piece of Blackberry pie or a dish of juicy, sweet Blackberries and cream?

We send you Select No. 1 plants grown from root cuttings. These are much superior to cheap plants from suckers. A straw mulch is fine for Blackberries and Raspberries. It holds moisture in summer, prevents weeds and eliminates cultivating.

ALFRED. Excellent flavor; very firm, large berries, size holds up well to the end of the picking season. Practically free from seeds. Plant is a thrifty grower, extremely hardy, bears young; suitable for home or market use. Early July

BLOWERS. Large, jet-black. Hardy and productive. Starts to ripen in July and continues late.

ELDORADO. Our most popular variety. The sparkling jet-black berries are very large, sweet and delicious, and practically coreless. The plant is extremely hardy and vigorous, and a regular heavy bearer.

PRICE: 1-yr., No. 1, selected rooted cuttings, 25 for \$3.30; 50 for \$5.70; 100 for \$9.90; 500 for \$34.50.

THORNLESS YOUNGBERRY

A Dark Wine Color Red Excellent for Jams

PRICE: 2-yr., extra large, No. 1 plants, 3 for \$1.65; 6 for \$2.70; 10 for \$3.50; 25 for \$6.75.

It's thornless, hardy. Ripens early. Bears heavily and most delicious flavor. Ripens two weeks before Thornless Boysenberry. The fruit of this berry is large, a handsome dark wine-red color, sweet, deliciously flavored and practically seedless.

YOUNGBERRY PRICES

2-yr., extra large, No. 1 plants: 3 for \$1.50; 6 for \$2.40; 10 for \$3.00; 25 for \$5.50.

The New Sensational Youngberry

**Hardy, Sweet, Delicious, Tremendous Bearer
Mid-July**

This new fruit, a cross of the Loganberry and the Dewberry, has become very popular, planted from coast to coast. It has such a wonderful flavor, delicious to eat fresh, and makes the finest sauce you ever tasted. The fruit is very large, a handsome dark wine-red color, sweet and delicious, highly flavored, almost seedless. A tremendous bearer. It is a very easy plant to grow. No other fruit has become so popular in such a short time. North of Missouri it should be covered over winter. This can be easily done with straw, leaves and a little dirt. Plant some this spring; you are sure to like them

DEWBERRIES

**Plant the Popular
LUCRETIA**

Excellent for canning. Of the Blackberry type, but produced on a trailing vine instead of upright bush. Berries extra large, long, glistening black. Attractive, firm, good quality. Plants are disease resistant. Yields large profits when grown commercially.

PRICE: 2-yr., extra large, No. 1 plants, 3 for 90c; 6 for \$1.50; 10 for \$2.00; 25 for \$3.75.

Maloney's

"Very" Dwarf Fruit Trees

For Limited Garden Space

Dwarf Apple Trees

These trees are not new with us. Some 15 odd years ago we started growing them from Malling stock secured from N. Y. State Experiment Station. We offered them for sale, the first of their kind sold in the United States. They are without question the "perfect" trees for the lawn or garden. Be sure to plant them so that the **bud union is at least 2 inches above ground.**

PRICE: 2-yr., large, 3 to 4 ft., \$3.75 each; 3 for \$10.50.

Full Dwarf

(Malling IX Root stock.) Bears fruit usually first year set. Height at maturity, 6 ft. Very popular for lawn and orchard. Plant 10 to 12 ft. apart.

Semi-Dwarf

(Malling I Root stock.) Sturdier tree than No. IX. Bears second year after planting. 10 to 12 ft. at maturity. Plant 15 ft. apart.

We can furnish the following varieties in either of the above types:

Cortland	Rogers McIntosh	Red Gravenstein
Early McIntosh	Yellow Transparent	Yellow Delicious

We can furnish the following varieties in semi-dwarf only:

Pound Sweet	Red Astrachan	Double Red Delicious
--------------------	----------------------	-----------------------------

(For descriptions, see standard varieties.)

DWARF FRUIT TREE
Special

Large, 3-4 Ft., Semi-Dwarf Trees.

1 Early McIntosh	3 for \$10.35
1 Yellow Delicious	
1 Cortland	

(See pages 3, 4, and 5, for Standard Varieties.)

Dwarf Pear Trees

Dwarf Pear trees are also a very valuable addition to any lawn or garden. Like the Apple, it is a low growing tree. Fruit is easily accessible from the ground and the fruit is large standard size. 15 feet at maturity. Plant 12 feet apart.

PRICE: 2-yr., large, 3 to 4 ft., \$3.75 each; 3 for \$10.50.

Varieties: Bartlett, Clapp's Favorite, Duchess, Seckel.

(For descriptions, see standard varieties.)

Dwarf Plum Trees

A new addition to our Dwarf Tree line. Like its running mates, the Dwarf Apple and Pear, it is a dwarf tree excellent for the lawn where a small tree is required. The fruit is standard size. Height at maturity 15 feet. Plant 12 feet apart.

PRICE: 2-yr., large, 3 to 4 ft., \$3.75 each; 3 for \$10.50.

Varieties: Abundance, Fellenberg.

(For descriptions, see standard varieties.)

MISCELLANEOUS GARDEN REQUISITES

Contains
Vitamins
B₁ and B₂

Ra-Pid-Gro Plant Food

The sensational new liquid plant food. Guaranteed analysis—Nitrogen 23%, Phosphoric Acid 21%, Potash 17%.

Nursery stock that is "dipped" in a solution of RA-PID-GRO starts quicker, grows faster.

Enjoy your lawn, garden and flowers at their best—feed RA-PID-GRO—a clean, odorless powder instantly soluble in water, easy to apply.

Every pound of RA-PID-GRO makes 22 gallons of plant food. There is no filler in RA-PID-GRO.

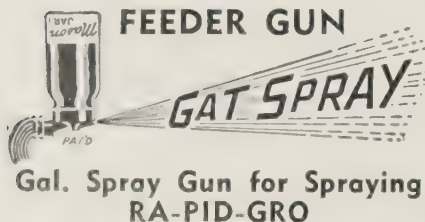

Use RA-PID-GRO on everything you grow. Directions for use given on every package.

We recommend for each 100 pounds of other fertilizer used in the past—purchase only 1 pound of RA-PID-GRO.

PRICES

1 pound	RA-PID-GRO	\$ 1.25
2 pounds	RA-PID-GRO	2.35
5 pounds	RA-PID-GRO	4.50
10 pounds	RA-PID-GRO	8.75
25 pounds	RA-PID-GRO	21.00
50 pounds	RA-PID-GRO	42.00

F. O. B. Dansville, N. Y.

Gal. Spray Gun for Spraying
RA-PID-GRO

Fertilize your lawn and garden this new and easy way. Save time and money. Place RA-PID-GRO in jar—comes out in liquid—properly mixed. Gun price: \$2.00 each.

Du Pont All Purpose Garden Dust

Here's the answer to many a gardener's wish—a single dust or spray that is an effective insecticide and fungicide. Highly effective against both chewing and sucking insects and also against many fungous diseases such as leaf-spots, blight, mildews, etc.

★ Contains 5% DDT and 0.75% Rotenone for insects. Ferric dimethyldithiocarbamate (as "Fermate") at least 3.5%. Zinc dimethyldithiocarbamate (as "Zerlate") at least 3.5%.

PRICES

1-lb. Sifter Top Can	\$1.25
4-lb. Canister	3.60

2-4 DOW WEED KILLER

2-4 Dow Weed Killer 10% contains approximately 23.4% of the alkanolamine salt of 2,4-D acid which is equivalent to 14% by weight or 1.2 pounds 2,4-D acid per gallon. This liquid formulation for the lawn and estate owner. One-half pint treats 2000 square feet. Six teaspoonfuls makes 1 gallon of spray which covers 250 square feet.

PRICE

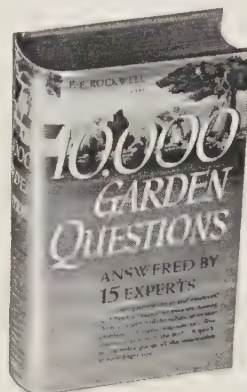

1-quart can	.. \$3.25	1-pint can	.. \$1.85	1/2-pint can	.. \$1.25

AMERICAN FRUIT GROWER

ANSWERS YOUR PROBLEMS IN FRUIT GROWING

Heavy yields of fine fruit are the result of careful plant breeding, but the fruit grower cannot realize the heavy bearing habits of fruit trees and brambles or plants unless he practices proper cultivation and care. To help fruit growers get maximum production from fruit plants is the purpose of the AMERICAN FRUIT GROWER.

The leading horticulturists in America will tell you how to plant, fertilize, cultivate, prune, how to control insects and diseases, when and how to harvest your fruit.

The subscription price of AMERICAN FRUIT GROWER is only \$1.00 for 3 years. It is published monthly. You get 36 issues for \$1.00, less than 3c a copy. If you are not satisfied after a 3-month trial, your money will be refunded. Fill out order blank and mail check, money order or bill direct to

EVERGREENS

QUALITY
as Well as **PRICE**
Should be Considered
in Buying Evergreens

Ours are Acclimated
and Freshly Dug

Collection No. 9—EVERGREENS

3 for \$10.25

- 1 Globe Arbor-vitae. 18-24 in.
- 1 Pyramidal Arbor-vitae. 2-3 ft.
- 1 Savin's Juniper. 18-24 in.

All Evergreens are taken up expertly to secure the tender roots, the soil removed, and then the roots dipped in Transplantone and balled and burlapped in wet moss. By this method we are now able to eliminate 50 to 60 pounds of soil, making low cost express shipments possible. This method also insures excellent growth and quicker root action. In planting, remove burlap and use peat moss in hole around roots.

All Evergreens are shipped separate from other orders because they are late in maturing.

ARBOR-VITAE, AMERICAN. Used for hedge, foundation planting or singly on lawn. Can be trimmed or allowed to grow high. Maturity height 15 ft.

18-24 in.\$2.40 each
2- 3 ft. 3.30 each

ARBOR-VITAE, BERCKMANN'S GOLDEN (Biota Aurea Nana). Popular conical form type; very dense and compact; green and yellow foliage. Excellent for foundation planting. 4 ft. at maturity.

15-18 in.\$3.75 each
18-24 in. 4.50 each

ARBOR-VITAE, GLOBE. Low growing, compact, round; for foundation planting. Maturity height 3 ft.

12-18 in.\$2.70 each
18-24 in. 3.60 each

ARBOR-VITAE, PYRAMIDAL. Densely columnar type. Compact, erect, deep green. Maturity height 8 ft.

18-24 in.\$2.70 each
2- 3 ft. 3.60 each

JUNIPER CHINENSIS COLUMNARIS. Tall, slender columns of deep green shading to blue. Used for entrances, in the foundation border, or as formal accents in the garden. Grows to 15 to 20 feet high; easily sheared to any desired height. They are hardy, quick to become established, and make rapid growth.

2½-3 ft.\$4.50 each

JUNIPER, HORIZONTALIS DEPRESSA PLUMOSA. Medium dark green foliage, arching branches. Ground cover; for rock garden or foundation. 6-ft. spread at maturity.

18-24 in.\$3.90 each

JUNIPER, IRISH. Formal, compact, columnar, for foundation planting. Used in cemeteries and on either side of entrances. Can be trimmed or will grow to 8 ft.

18-24 in.\$2.40 each

Maloney's Climbing-Hedge and Bush Roses

LEADING CLIMBING OR PILLAR ROSES

The climbers conserve space in your garden, can be utilized for shade and beauty purposes on trellises and garden pagodas.

PRICE: 2-yr. choice plants, \$1.00 each; 3 for \$2.85; 5 for \$4.50; 10 for \$8.50.
AMERICAN BEAUTY. Hardy. Rosy carmine; large size blooms. One of the best climbers.

DOROTHY PERKINS. Soft shell-pink; small, crinkly, in large clusters.

GARDENIA. Pretty yellow flowers opening from buds which are a rich, creamy yellow.

MARY WALLACE. The outstanding large-flowered pink climber.

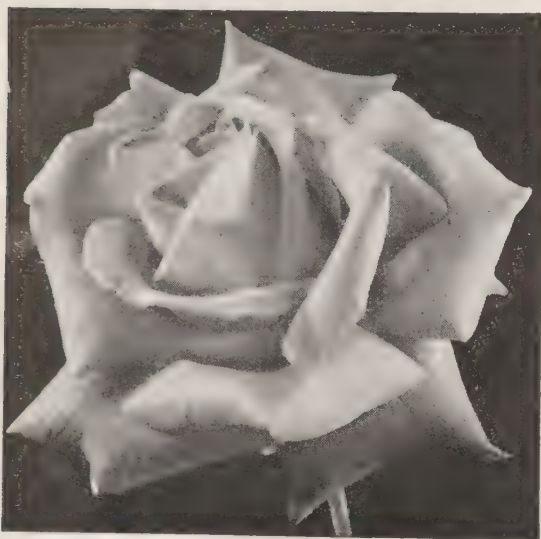

PAUL'S SCARLET. Large, vivid scarlet-red. Will not fade.

PRIMROSE. New hardy climber, blooms profusely with large, double, canary-yellow flowers.

ROYAL SCARLET. Intensely fragrant, dark velvety scarlet; a continuous bloomer, vigorous, hardy.

SNOW QUEEN. Large, semi-double white with yellow stamens.

TALISMAN. Multi-colored blooms, same as the parent bush.

JUNE BLOOMING PERPETUAL EXTRA HARDY ROSES

PRICE, 2-Yr., Choice Plants:

**\$1.00 each; 3 for \$2.85;
5 for \$4.50; 10 for \$8.50.**

GENERAL JACQUEMINOT. An old favorite, clear red.

FRAU KARL DRUSCHKI. Large snowy white blossoms. Buds long and beautiful. Large blooming.

PAUL NEYRON. Large, double blooms of rosy pink.

THE NEW THORNLESS RED HYBRID TEA "FESTIVAL"

(Patented)

Maloney's offer you a Rose without a thorn. "Festival", the newly developed thornless Rose, is a brilliant sport of the famous E. G. Hill. Truly a marvel of the age of Rose development. Brightest red color, begins to bloom 6 to 8 weeks after planting and continues producing abundantly until freezing weather.

PRICE: 2-yr., No. 1, field-grown bushes, \$1.50 each.

Low Growing Hedge or Bed Roses—Bloom June Until Frost

Known as Polyantha or Baby Rambler

PRICE: 2-yr. choice plants, \$1.00 each; 3 for \$2.85; 5 for \$4.50; 10 for \$8.50.

CAMEO. Shell-pink and salmon with a glow of gold; blooms continuously.

KATHARINA ZEIMET. Double, pure white, fragrant, in large clusters.

GOLDEN SALMON. Beautiful red-salmon, overlaid with orange and gold. Light eye.

IDEAL. Dark scarlet in immense compact clusters; free-flowered.

PINK LAFAYETTE. Medium sized, very lasting blooms of clear pink. Profuse.

LEADING PATENTED EVERBLOOMING ROSES

2-Year, Choice Everblooming Hybrid Tea Roses—Will Bloom First Year Planted

CHARLOTTE ARMSTRONG. Unique color with long, slender, blood-red buds opening to magnificent, brilliantly colored open flowers, spectrum-red in cool weather, cerise in hot weather. **PRICE: \$1.50 each; 3 for \$3.75.**

CRIMSON GLORY. Deep crimson color, a "Glory" Rose. Glorious in its perfect form, large size and fragrance. **PRICE: \$1.50 each; 3 for \$3.75.**

LOWELL THOMAS. Bud large, long-pointed; flower large, very double, high-centered, lasting, clear canary-yellow on strong stem. Vigorous, compact, bushy plants; upright, intermittent bloomer. **PRICE: \$1.50 each; 3 for \$3.75.**

MARY MARGARET McBRIDE. The buds are deep salmon-pink, almost reddish in fall, and the suffusion of yellow becomes a gold at base of petals. Rose full, having about 45 petals. Bush strong and vigorous in growth, producing great numbers of long-stemmed Roses excellent for cutting. **PRICE: \$1.50 each; 3 for \$3.75.**

PEACE. Ovoid buds and golden yellow etched with pink as they open, color changes from canary-yellow to pale golden, to iridescent cream. Petals are edged with apple-blossom-pink that deepens as the flower slowly opens to glorious 5-inch blooms. **PRICE: \$2.00 each; 3 for \$5.00.**

Fascinating Tree ROSES

For newness in your garden, this aristocrat of the Rose world rises above all others on one straight stem, creating a panoramic beauty within easy picking reach.

Grow as tall as you are. They bloom profusely and produce a quality of bloom which is more beautiful than the regular Hybrid Teas. They bloom from June till frost.

VARIETIES: E. G. Hill, red; Mrs. E. P. Thom, pink; Talisman, variegated. **PRICE:** \$4.50 each; 2 for \$8.50.

PERENNIALS

THAT

Maloney's Garden Plants and Flowering Bulbs

PERENNIALS—Continued from page 34

POPPY, BARR'S WHITE. Large, pure white flowers with purplish black spots. **PRICE: 50c each; 3 for \$1.35.**

POPPY, BEAUTY OF LIVERMORE. Finest dark crimson with black blotch. Flowers freely. **PRICE: 50c each; 3 for \$1.35.**

POPPY, ORIENTAL. Tremendous cup-shaped blooms of brightest crimson-scarlet with large purplish black blotches at base of petals. 3 to 3½ ft.

POPPY, SALMON GLOW. Large, double, salmon-pink flowers. **PRICE: 50c each; 3 for \$1.35.**

TEUCRIUM CHAMAEDRY. Glossy green foliage resembling dwarf Boxwood. May be used where Boxwood is not hardy. Can be clipped to any height up to 12 inches.

TROLLIUS EUROPAEUS. Free flowering, strong growing plant. Flowers pale yellow. 2 ft. high.

VIOLA, ROYAL ROBE. (New.) Large flowers of deep purple. **PRICE: 60c each; 5 for \$2.75.**

GLADIOLUS

Not less than five of a variety. No. 1, large size bulbs. PRICE (except as otherwise noted): 10 for \$1.25; 25 for \$2.75; 50 for \$4.75; 100 for \$8.75.

ANNAMAE. Very early pure white. A good commercial and a heavy producer of bulblets which grow readily.

BIG TOP. Really immense in size. Light pink with small carmine feather. Opens 7 on a 20-bud spike.

BLUE BEAUTY. One of the heaviest and largest of the medium blues. Highly recommended.

Picardy

Burma

CHAMOUNY. Tall, dark rose bordered with silver. Opens 8 to 10 medium sized florets. Color exceptionally and strikingly beautiful.

CORONA. Well known pink with rose picotee edge. Distinctive and beautiful.

ELIZABETH THE QUEEN. The best and most beautiful lavender. Not exceptionally tall but fancy even when short. Opens 7 to 8 needle-pointed florets on an 18-bud spike.

ETHEL CAVE-COLE. Light pink. Massive spikes with 8 open and most all other buds showing color.

JEANIE. Beautiful clear pink with white midribs and creamy yellow throat. Very tall and fine.

LADY JANE. Clear light cream with yellow lip. Appears to be a light yellow.

LAVENDER QUEEN. Deep lavender-mauve that takes in real hot weather. Very strong grower.

MARGARET BEATON. Snow-white with very small, orange-scarlet blotch.

MISTY DAWN. Soft smoky gray or bluish salmon with a smoky orange-red blotch. 6- to 7-inch blooms on a tall plant.

MOHAWK. Deep glistening maroon that opens up to 10 blooms at a time.

MOTHER KADEL. Medium yellow without any foreign color. Like wax to the very depth of the throat.

PICARDY. Most popular variety grown. Very tall salmon-pink.

PINK RADIANCE. An outstanding pink. Eleven open on a 24-inch flower head.

PURPLE SUPREME. Medium purple with silver edge on the petals. Will open 10 on a shoulder-high plant.

RED CHARM. A red of outstanding merit. Will open 10 on a tall, well-built plant.

SURFSIDE. Ruffled white with slight penciling in the throat. Heavy grower.

VALERIA. Beautiful shade of light red. Very strong, healthy grower.

WHITE GOLD. Very large clear light cream, shading to golden throat.

The following are at these prices: 10 for \$2.50; 25 for \$5.00; 50 for \$9.00; 100 for \$16.00.

ABU HASSAN. Dark violet-blue about the color of old Pelegrina. Large flowers; straight, strong stems.

BURMA. Very large, deep rose, shading to lighter throat. Ruffled. Opens up to ten.

LEADING LADY. Most popular Picardy sport. Leading white. Creamy white with no marking. Excellent grower.

SPOTLIGHT. Very large, wide open, round flower in deep yellow with small scarlet blotch. Free bloomer.

Maloney's Sure-Grow Lawn Grass Seed

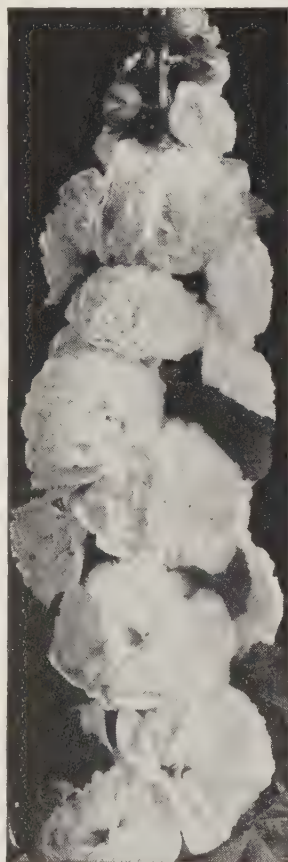

All our grass seed has been carefully selected, cleaned and tested. The analysis and germination test is printed on a tag attached to every bag of our lawn seed. Our mixtures are blended from proven formulas.

For new lawns use about 1 pound to 300 square feet, rebuilding old lawns 1 pound to 600 square feet.

"GREENSWARD" LAWN MIXTURE. Will give you a good lawn at a low price. Contains quick growing grasses that produce a beautiful lawn in a short time. **PRICES: ½ lb., 45c; 1 lb., 80c; 2 lbs., \$1.55; 5 lbs., \$3.75; 10 lbs., \$7.30; 50 lbs., \$35.00; 100 lbs., \$67.00.**

"EXTRA FINE" LAWN MIXTURE. Contains the best quality seeds most desirable for a fine, thick, deep green turf that will stand for many years. This is our super-quality mixture. **PRICES: ½ lb., 50c; 1 lb., 95c; 2 lbs., \$1.85; 5 lbs., \$4.50; 10 lbs., \$8.80; 50 lbs., \$42.50; 100 lbs., \$82.00.**

"SHADY PLACE" LAWN MIXTURE. A mixture specially suited for planting in shady spots. Sow one of our other mixtures on the sunny part of your lawn, but be sure to also use this "Shady Place" mixture under trees, etc. **PRICES: ½ lb., 60c; 1 lb., \$1.10; 2 lbs., \$2.00; 5 lbs., \$4.80; 10 lbs., \$9.40; 50 lbs., \$46.00; 100 lbs., \$90.00.**

Chrysanthemums

Maloney's Garden Beautiful ALL

BLUE HYDRANGEA

BLUE HYDRANGEA. One of the few blue-blossomed shrubs. 2-yr., 4-in. pots, \$2.00 each.

RED-LEAVED BARBERRY. Foliage rich bronzy red; scarlet berries coming in early fall. An invitation to the birds. Excellent for foundation planting or hedge purposes. Strong 2-yr. shrubs, 65c each; 3 for \$1.80; 10 for \$5.50.

Red Leaf Barberry

Flowering Almond

SPIREA VAN HOUTTE. America's favorite shrub. Recommended for background planting, and as a thick hedge screen. 18-24 inch shrubs, 3 for \$1.20; 10 for \$3.50.

HONEYSUCKLE ZABELLI. A new red bush-type Honeysuckle. 2-3 ft., \$1.25 each.

SPIREA MACROTHYRSA. The finest pink Spirea ever introduced. Blooms late September. 2-3 ft., \$1.25 each.

PHILADELPHUS INNO-CENCE. A new deluxe Mock Orange type shrub; pure white flowers. 2-3 ft., \$1.25 each.

Shrubs

PRICES (except as noted): 2-yr., 18-24 in., blooming size, 65c each; 3 for \$1.80; 10 for \$5.50. 2-yr., 2-3 ft., extra large blooming size, 80c each; 3 for \$2.25; 10 for \$7.00.

Shrubs for Shady Places: Barberry, Forsythia, Honeysuckle, Hydrangea, Snowberry, Snowball, Spirea Van Houttei, Spirea Billiardi.

(Height at maturity is listed after each variety so you can make careful selection of your needs.)

ALMOND. Rose-colored blossoms resembling small Roses. 4 ft. at maturity. May. **PRICE:** 18-24 in., 70c each; 3 for \$1.85. 2-3 ft., 85c each; 3 for \$2.40.

ALTHEA (Rose of Sharon). Double, large, brightly colored flowers blooming in late August and September. Red, pink, purple and white. 8 to 10 ft. at maturity.

BUDDLEIA, DUBONNET. New. The color is an intriguing shade of rich grape-purple. The firm, cylindrical spikes are snugly set with individual flowers of good size that do not sunburn. The plant is erect with strong stems, the leaves large and of firm, leathery texture.

BUDDLEIA, EMPIRE BLUE. We do not know of any other Buddleia that compares with this. The color is an Aster-blue with a delicate lilac tone, the whole effect being an exquisite shade of blue. **PRICE:** 2-yr., No. 1 plants, 90c each.

SENSATIONAL NEW BUDDLEIA, RED GLORY. Brightest red Buddleia of them all, showy in the garden. Ideal for cut flower purposes. Very hardy, producing blooms from July until frost. 4 to 6 ft. at maturity. **PRICE:** 2-yr., No. 1 plants, 90c each.

BUDDLEIA, WHITE CLOUD. Not over 3 ft. high and about the same in diameter, forming a green mound studded with short-stemmed flower spikes with pure white blooms. Early August until October. **PRICE:** 2-yr., No. 1 plants, 90c each.

BARBERRY, RED-LEAVED. Foliage rich bronzy red. Brilliant throughout the summer and fall. Scarlet berries remain on the plant the entire winter. Plant in full exposure to the sun. 3 ft. at maturity. **PRICE:** See Hedges.

BARBERRY THUNBERGI. Dwarf habit. Foliage turns beautiful red in fall. Red berries remain during winter. 5 to 7 ft. at maturity. **PRICE:** See Hedges.

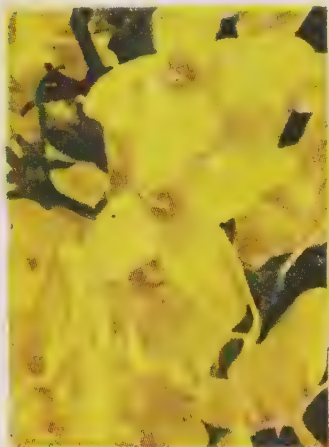

CALICARPA PURPUREA (Beautyberry). Clusters of pink flowers followed by light violet berries. 5 ft. at maturity. August.

SEASON Flowering Shrubs

(Additional Varieties, page 38)

RED JAPANESE QUINCE.
Excellent as a protective hedge. 3 for \$1.80.

FORSYTHIA. Profuse golden flowers; bloom in April. 3 for \$1.80.

TAMARIX. A graceful pink-flowering shrub. 3 for \$1.80.

SHRUBS—Continued from page 36

CORNUS FLAVIRAMEA (Yellowtwig Dogwood). Striking yellow-branched form. Very satisfactory for contrasting. 6 to 8 ft. at maturity.

CORNUS STOLONIFERA (Redtwig Dogwood). White flowers followed by white berries. In winter branches are blood-red. 6 to 8 ft. at maturity. May-June.

CYDONIA JAPONICA (Red Jap Quince). Completely covered with scarlet flowers during May. 3 to 4 ft. at maturity. 18 to 24 in. only.

DAPHNE, SOMERSET (Evergreen Shrub). New, starlike, blush-white flowers, deliciously fragrant, in May and June, lasting a month or more. Foliage rich dark green, remaining on plant well into winter. 2½ ft. at maturity. Moss balled like evergreens. **PRICE: 18 to 24 in., \$2.50 each.**

DEUTZIA LEMOINEI. Flowers large, pure white, produced freely. July. 3 ft. at maturity. 18 to 24 in. only.

DEUTZIA, PRIDE OF ROCHESTER. Best known variety. Flowers large and free, double white. May. 6 to 8 ft. at maturity.

EUONYMUS EUROPAEUS (European Burning Bush). Orange-red fruit in autumn. Dark green foliage. 15 to 20 ft. at maturity.

FORSYTHIA FORTUNEI. (Erect.) Deep yellow flowers in great profusion during April. 6 to 8 ft. at maturity.

FORSYTHIA INTERMEDIA. (Arching.) Earliest blooming; long drooping canes of yellow flowers. April. 6 to 8 ft. at maturity.

HONEYSUCKLE, TATARICA GRANDIFLORA ROSEA. Bright pink flowers; covered in summer and autumn with orange berries. May. 6 to 8 ft. at maturity.

HONEYSUCKLE, TATARICA RUBRA. Light red flowers; covered in summer and autumn with scarlet berries. May. 6 to 8 ft. at maturity.

HONEYSUCKLE ZABELLI. A marvelous new red Honeysuckle; the most shapely bush of any of the type. Glossy deep green foliage enhances the unsurpassed glowing red flowers, marked with deep golden yellow stamens. A heavy bloomer and the brilliant red fruits last throughout the summer. 6 ft. at maturity. **PRICE: 2 to 3 ft., \$1.25 each; 3 to 4 ft., \$1.50 each.**

HYDRANGEA A. G. (Hills of Snow). Blooms very large, pure snow-white in July and August. 4 to 5 ft. at maturity. **PRICE: 18 to 24 in., 70c each; 3 for \$1.95.**

LILAC, PURPLE. Most common of Lilacs. Highly perfumed. 10 ft. at maturity. May. 18 to 24 in. only.

PHILADELPHUS AUREUS (Golden Syringa). Yellow foliage, white flowers. Very sweetly scented. 3 to 5 ft. at maturity. May. **PRICE: 15 to 18 in., 70c each; 3 for \$1.95.**

PHILADELPHUS, INNOCENCE. A new Deluxe Mock Orange type, with exceptionally large single flowers. The branches are heavily laden with a wealth of close blooming flowers on slender branches. Grows to 6 ft. **PRICE: 2 to 3 ft., \$1.25 each.**

PHILADELPHUS, VIRGINAL. Moderately tall. Flowers large, handsome, sweetly scented. 6 to 8 ft. at maturity.

SYMPHORICARPOS CHENAULTI (Coralberry). Pink flowers in June followed by red and white berries. Foliage rich shade of green. Hardy. 3 to 4 ft. at maturity.

SYMPHORICARPOS RACEMOSUS (Snowberry). Small pink flowers followed by large, waxy white berries which remain during winter. June-July. 4 to 5 ft. at maturity.

SPIREA ANTHONY WATERER. Broad, flat heads of red flowers in profusion all summer. 3 ft. at maturity. June-July. 18 to 24 in. only.

SPIREA MACROTHYRSA. This is without doubt the finest pink Spirea ever introduced. The enormous spikes of cameo-pink flowers up to 12 inches long, are produced on strong, willowy stems up to 4 feet long. Clusters of secondary spikes follow after cutting and by trimming out the old flowers, the plant can be made to bloom all summer until late September. **PRICE: 2 to 3 ft., \$1.25 each; 3 to 4 ft., \$1.50 each.**

SPIREA THUNBERGI. Dense, feathery bush, 3 to 5 ft. high. White flowers in early spring. Foliage light yellowish green, turning red and orange in fall. 5 ft. at maturity.

SPIREA VAN HOUTTEI. Complete fountain of pure white in May and June. Most popular Spirea. 6 to 8 ft. at maturity. **PRICE: 18 to 24 in., 45c each; 3 for \$1.20; 10 for \$3.50. 2 to 3 ft. size, 50c each; 3 for \$1.35; 10 for \$4.25.**

TAMARIX AFRICANA. Pink flowers, graceful filmy foliage. Blooms early. 4 to 5 ft. at maturity.

VIBURNUM OPULUS (Bush Cranberry). Handsome foliage; crimson berries. Flowers pure white in dense cymes about 4 inches across. 8 to 9 ft. at maturity. May.

VIBURNUM OPULUS STERILE. (Common Snowball.) White blooms. Late May. 8 to 10 ft. at maturity.

WEIGELA ROSEA. Flowers large and of deep rosy color, borne in great profusion. July. 5 to 6 ft. at maturity.

WEIGELA ROSEA NANA, VARIEGATED. Fine dwarf shrub. Silvery variegated leaves. Flowers rose with white eye. 4 to 5 ft. tall. July. 18 to 24 in. only.

Maloney's Tell You How to Landscape and Beautify Your Home

Plan to spend extra time this spring and summer modernizing your present garden planting. Many are digging up overgrown shrubs and plants, and replacing with fresh, full-of-life, ready-to-bloom, new and better varieties. We will gladly help plan your garden. Read the instructions below.

If you purchase your stock from Maloney's, our charge for developing a scientifically planned landscape design will cost you only a few dollars. Hundreds of our customers use this service for the nominal charge indicated below.

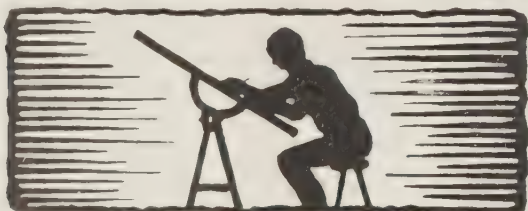

It's free. You may deduct cost of plan when ordering as per the price schedule below. Actually plan costs nothing when you order. We will make a plan according to your specification. Providing you purchase not less than 75% of the material listed, you may deduct the cost of the plan.

NO SHIPMENTS MADE AFTER APRIL 15th

Orders for Maloney "MAGIC" Mushroom Trays are filled starting October 15th and continuing until April 15th. Mushrooms do not produce well when shipped or grown in warm weather. MEN WITH YEARS OF EXPERIENCE grow mushrooms this way for wholesale markets. Now you can grow them in your own home! Four "MAGIC" Trays frequently yield a bushel or more of mushrooms . . . Fine, Tender, Delicious. Complete Instructions for growing mushrooms sent with every order.

MALONEY'S "Magic" MUSHROOM HINTS

MUSHROOMS GROW BEST in temperatures ranging between 52 and 65 degrees. Most favorable results are obtained in a temperature of 55 degrees. Mushrooms can be grown anywhere in cellar or cool storage space away from heat. Temperature can be kept down by surrounding trays with paper or cloth.

AFTER A "MAGIC" TRAY has finished producing nothing can be added or done to make more mushrooms grow, but the soil (humus) in the tray is a rich fertilizer that can be profitably used for house plants and outside gardens.

SAVE MORE MONEY by buying as many Maloney "MAGIC" mushroom trays as possible. You can divide the trays with your neighbors. Combine your order with your friends! You will pay less per tray and express charges per tray will also be much less in larger quantities.

BLUEBERRIES

Grandfather may speak of "the good old days" but you can bet that those days never produced Blueberries that could compare with the completely new Maloney cultured Blueberries that eclipse all their predecessors in size and tempting appetite appeal.

SOIL REQUISITES

These new developments should bear the first year after planting, and are especially adapted to an acid soil. If your land is not of this type, it can be easily and inexpensively treated with aluminum sulphate and peat moss to produce this condition. It should be emphasized that good air circulation, drainage, and quality soil are all essentials for a productive yield.

PRODUCTIVE ORNAMENTATION

Unlike many other members of the berry family, these new developments in Blueberry bushes are possessed of many attractive

characteristics that make them useful for practical planting plans—the varieties in size and height available, listed on this page, provide an adaptable selection which you can mould to your own particular home ground needs.

POLLENIZATION

In order to assure productiveness, plantings of two different varieties are necessary for proper pollenization. So, for productive yet ornamental and practical planting, Maloney Blueberries are unexcelled.

Eating pleasure is multiplied four-fold when you produce your own Blueberries for home-baked pies, preserves, and desserts.

Maloney's Cultivated Blueberry Bush

4 Cultured Varieties

CABOT. The earliest variety to ripen. Berries have a delicious sub-acid flavor. Plants seldom exceed 3 feet in height, making a broad, low bush.

CONCORD. High bush, berries large, well flavored, and attractive in appearance. Midseason.

RANCOCAS. Upright grower, vigorous, hardy; fruit very fine flavor. Fruit medium to large size. Sets very heavy crop of fruit buds. Midseason.

JERSEY. Tall, nice shaped bush of attractive appearance. A good producer. Berries are large and of good quality. Late.

BLUEBERRIES
